Marine Chemistry, Vol. 55 (1996)

Special Issue: The Use of Cross-Flow Filtration (CFF) for the Isolation of Marine Colloids. Edited by K.O. Buesseler

Introduction to "Use of cross-flow filtration (CFF) for the isolation of marine colloids"	
K. Buesseler	vii
An intercomparison of cross-flow filtration techniques used for sampling marine colloids: Overview and organic carbon results	
K.O. Buesseler, J.E. Bauer, R.F. Chen, T.I. Eglinton, O. Gustafsson, W. Landing, K. Mopper, S.B. Moran, P.H. Santschi, R. VernonClark and M.L. Wells	1
Cross-flow filtration of dissolved and colloidal nitrogen and phosphorus in seawater: results from an intercomparison study	
J.E. Bauer, K.C. Ruttenberg, D.M. Wolgast, E. Monaghan and M.K. Schrope	33
Effects of cross-flow filtration on the absorption and fluorescence properties of seawater	
K. Mopper, Z. Feng, S.B. Bentjen and R.F. Chen	53
Colloidal aluminum and iron in seawater: An intercomparison between various cross-flow ultrafiltration systems	
R. Reitmeyer, R.T. Powell, W.M. Landing and C.I. Measures	75
On the integrity of cross-flow filtration for collecting marine organic colloids	
Ö. Gustafsson, K.O. Buesseler and P.M. Gschwend	93
A critical evaluation of the cross-flow ultrafiltration technique for sampling colloidal organic carbon in seawater	
L. Guo and P.H. Santschi	113
An ultraclean cross-flow ultrafiltration technique for the study of trace metal phase speciation in seawater	
L.-S. Wen, M.C. Stordal, D. Tang, G.A. Gill and P.H. Santschi	129
Evaluation of an Osmonics® spiral-wound cross-flow filtration system for sub- μ m sampling of Cd, Cu and Ni in seawater	
J.M. Greenamoyer and S.B. Moran	153
Colloidal trace metals, organic carbon and nitrogen in a southeastern U.S. estuary	
R.T. Powell, W.M. Landing and J.E. Bauer	165
Mercury associated with colloidal material in an estuarine and an open-ocean environment	
J.L. Guentzel, R.T. Powell, W.M. Landing and R.P. Mason	177
Elemental composition of the colloidal phase isolated by cross-flow filtration from coastal seawater samples	
K.K. Bertine and R. VernonClark	189

Regular Research Papers

Meridional carbon dioxide transport in the northern North Atlantic	
M.H.C. Stoll, H.M. van Aken, H.J.W. de Baar and C.J. de Boer	205
Carbon dioxide characteristics of water masses in the northern North Atlantic Ocean	
M.H.C. Stoll, H.M. van Aken, H.J.W. de Baar and M. Kraak	217

The reliability of the thermodynamic constants for the dissociation of carbonic acid in seawater K. Lee, F.J. Millero and D.M. Campbell	233
Dissolved carbon dioxide in Dutch coastal waters D.C.E. Bakker, H.J.W. de Baar and H.P.J. de Wilde	247
Modelling the monthly sea surface f_{CO_2} fields in the Indian Ocean F. Louanchi, N. Metzl and A. Poisson	265
Major biochemical composition of dissolved high molecular weight organic matter in seawater M. McCarthy, J. Hedges and R. Benner	281
Relationship between the optical properties of chromophoric dissolved organic matter and total concentration of dissolved organic carbon in the southern Baltic Sea region G.M. Ferrari, M.D. Dowell, S. Grossi and C. Targa	299
Excitation-emission-matrix fluorescence spectroscopy applied to humic acid bands in coral reefs B.J.H. Matthews, A.C. Jones, N.K. Theodorou and A.W. Tudhope	317
Photobleaching of fluorescence and the organic carbon concentration in a coastal environment A. Skoog, M. Wedborg and E. Fogelqvist	333
The compositions of wax esters, triacylglycerols and phospholipids in Arctic and Antarctic copepods: evidence of energetic adaptations C.S. Albers, G. Kattner and W. Hagen	347
Volatile halocarbons released from Arctic macroalgae F. Laturus	359
Geochemical anomalies in coral skeletons and their possible implications for palaeoenvironmental analyses N. Allison	367
Improved dithiocarbamate/oxine solvent extraction method for the preconcentration of trace metals from seawater using metal exchange back-extraction G.J. Batterham and D.L. Parry	381
Surface studies of the jalpaite-based copper(II) ion-selective electrode membrane in seawater R. De Marco	389
Photochemical dissolution of radionuclides from marine sediment D. McCubbin and K.S. Leonard	399
